

Dear Senator,

I am writing to ask you to support Senate Bill 321 that would place a two-year moratorium on executions in our state and establish a commission to study the practice. The death penalty has not been an effective deterrent, it is unfairly applied, and this most severe penalty has been given to innocent people. A moratorium and study is a prudent way for us to reflect on this practice.

Missouri has the opportunity through this legislation to be the first state to initiate a legislative moratorium that involves all branches of government in a collaborative way. *We urge you to support this bill.*
