

THE REIGN FOREST CHRIST REIGNS AT NCYC

C U @ NCYC

- Packed with mental, physical and spiritual challenges, the Reign Forest occupies 191,000 square feet inside Bartle Hall.
- Presided over by a 16 x 16' woodcut of Jesus Christ, the park features three mega tree houses constructed from over 10,000 board feet and a lush rain forest canopy for exploration.
- Forty live bands will take to the stage in the coffee house.
- An artist corner features studios for attendees and performance art by Mike Debus.
- Athletes and wannabes can step into an interactive sports experience.
- Images of faith heroes new and old use today's teens favorite communication tool - the text - to ask and answer questions.
- The thematic park is home to social justice projects, 700 exhibitors, a technology-rich environment, and all things Catholic.
- Watch teens use language and media tools to wade into an ancient faith.
- The thematic park concept debuted in Kansas City at NCYC '97.

Tree House Bound for Bartle Hall
